It meanders where the foothills of the Ozarks begin to rise out of the Mississippi plain. The area was sparsely populated when E. R. Coleman was a young man. Like the population they served, businesses were modest, mostly small, and scattered. Arkansas was still the Bear State; slogans boasting that it was or predicting that it would become the Land of Opportunity were yet to be conceived. Coleman’s early years were shaped by the Great Depression, by a family ethic that dictated working as long as there was sunlight in the day, and by a region bordered on the west by Oklahoma’s Dust Bowl and on the east by the mighty sometimes vengeful Mississippi River. Told in his own words, this is a genuine American Horatio Alger story of hardscrabble beginnings, working longer and harder than today’s youth might be able to imagine, and plain dealing from cotton fields to board rooms.
